REASONS FOR ALLOWANCE

1. Claims 1-13 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose or render obviousness a method for modular multiplying a polynomial multiplicand by a polynomial multiplier within a cryptographic calculation comprising: a multiplication look-ahead step to obtain a multiplication shift value; multiplying variable raised to the power of multiplication shift value by an intermediate result polynomial; performing a reduction look-ahead method to obtain a reduction shift value wherein reduction shift value being equal to the difference of the degree of shifted intermediate result polynomial and the degree of modulus polynomial; multiplying variable raised to the power of reduction shift value; and summing shifted intermediate result polynomial and subtracting shifted modulus polynomial to obtain an updated intermediate result as cited in independent claims 1 and 7.

The closest found prior art is Sedlak (U.S. 4,870,681). Sedlak discloses a method for modular multiplying a multiplicand by a polynomial multiplier within a cryptographic calculation comprising: a multiplication look-ahead step to obtain a multiplication shift value; multiplying variable raised to the power of multiplication shift value by an intermediate result; performing a reduction look-ahead method to obtain a reduction shift value; multiplying variable raised to the power of reduction shift value; and summing

shifted intermediate result polynomial and subtracting shifted modulus to obtain an updated intermediate result. However, Sedlak fails to disclose the operands, multiplicand, multiplier, and modulo being polynomials of a variable and the reduction shift value being equal to the difference of the degree of shifted intermediate result polynomial and the degree of modulus polynomial as seen above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
